There's a New Lifestyle Blogger in Miami and He Has a Beard, Four paws and an Insatiable Appetite for Doga

Follow Hamilton Barkley, a spunky Scottish Terrier (yes, a dog), as he visits iconic Miami landmarks, discovers hidden gems, explains the ins-and-outs of spicy Latin culture and embarks on endless pawsome adventures throughout the city.

MIAMI, FL – October 7, 2016 – Another lifestyle blog about Miami? Well, yes and no. HamilnMiami.com, a spin-off of the wildly engaging Instagram, [@HamiltonBarkley](https://www.instagram.com/HamiltonBarkley), is a blog that showcases the best that Miami has to offer and is narrated by a handsome bearded Scottie dog. Because let's face it, once you add a cute dog to anything, it automatically gets THAT much better.

"It all started out with an idea that I had about making a digital photo album of Hami's life; a photo a day on Instagram to document how he was growing," his owner & self-proclaimed pawblicist, Sophia Costabal, explained. "I made sure to take him everywhere when he was a puppy to ensure he was learning to socialize, and I found that the more I took take him around town and posted about it, the more reactions I received from people, the more they were engaged. However, photos can only tell so much, so I created his blog to really give his fans the juicy details. The response has been great; many locales have actually called requesting Hami's presence!"

From restaurants, shopping centers and hotels, to beaches and parks, Hami can be found living it up in Miami, and in true 305 fashion, always dressed to impress. When it comes time to show off his Doga skills however, bowtie and Tropical T's are put aside.

"I like to practice yoga at home," Costabal said. "But Hami isn't a fan because it takes the attention away from him. One day, as I was getting ready to practice, I laid on my back and Hami jumped on top of me, almost as if begging to be included. I began to flow and go through various poses with him on me and incredibly, he was able to stay put. I am now convinced he is part goat; he balances so well! Hami loves Doga (Yoga + Dog = Doga) and I love practicing with him."
